| End Semeste  | er Evaluation (Practi             | ical Papers)                      |              |  |  |  |  |
| ESE Quiz   |                                   | 30 Marks                          |              |  |  |  |  |
| ESE Practical Examination  |                                   | 50 Marks                          |              |  |  |  |  |
| Viva- Voce   |                                   | 20 Marks                          |              |  |  |  |  |

#### **Structure of Question Paper (ESE Theory Paper)**

The question paper will consist of 5 questions, one from each unit. Students have to Attempt all questions. All questions carry 20 marks each. Parts a) and b) of question Q1 to Q5 will be compulsory and each part carries 2 marks. Parts c), d) and e) of Q1 to Q5 Carry 8 marks each and the student may attempt any 2 parts.

#### **Important Note:**

- 1. The purpose of examination should be to assess the Course Outcomes (CO) that will ultimately lead to attainment of Programme Outcomes (PO). A question paper must assess the following aspects of learning planned for specific course i.e.: Remember, Understand, Apply, Analyze, Evaluate & Create (reference to Bloom's Taxonomy). The standard of question paper will be based on mapped BL level complexity of the unit of the syllabus, which is the basis of CO attainment model adopted in the university.
- 2. Case Study is essential in every question paper (wherever it is being taught as a part of pedagogy) for evaluating higher-order learning. Not all the courses might have case teaching methods used as pedagogy.
- 3. There shall be continuous evaluation of the student and there will be a provision of real time reporting on QUMS. All the assignments will evaluate through modules available on ERP for time and access management of the class.

#### Program Structure - Bachelor of Business Administration

#### Introduction

#### Introduction

The 3-years Full-time BBA Course offered by the University aims to educate and prepare the young aspirants with the knowledge, analytical abilities, skills and aptitudes needed to provide business leadership in the rapidly changing and competitive global marketplace. The rigorous program aims in achieving the stated learning objectives through a series of standardized core courses and choice-based electives. The program provides a comprehensive foundation in the fundamentals of business management.

The BBA Program subjects are designed in such a way that students grasp maximum knowledge related to Management and Specialized domains. It will help students towards enhancing employability and entrepreneurial ability. In order to harness regional specialties and to meet region-specific needs the Quantum University modified the content of syllabus as per the regional demands and needs. The Quantum university offers the specializations Finance, Marketing, Human Resource, Digital Marketing & Employed Program Subjects are designed in such a way that students grasp maximum knowledge related to Management and Specialized domains. It will help students towards enhancing employability and entrepreneurial ability. In order to harness regional specialized and needs. The Quantum university offers the specializations Finance, Marketing, Human Resource, Digital Marketing & Employability and entrepreneurial ability.

#### Experiential Learning Programme (ELP)/ Hands On Training (HOT)

This program will be undertaken by the students in all the semesters and will be done through Projects. All these Projects will be compulsory. Summer Internship & Camp; Research Projects are based on their specialization.

Summer Internship 6 to 8 Weeks (End of Semester III)

Research Projects (Semester VI)

#### **Choice Based Credit System (CBCS)**

Choice Based Credit System (CBCS) is a versatile and flexible option for each student to achieve his target number of credits as specified by the UGC and adopted by our university.

The following is the course module designed

Core competency: Students will acquire core competency in Bachelor of Business Administration

#### **Program/Discipline Specific Elective Course (DSEC)**:

**Skilled communicator:** The course curriculum incorporates basics and advanced training in order to make a graduate student capable of expressing the subject through technical writing as well as through oral presentation.

**Critical thinker and problem solver:** The course curriculum also includes components that can be helpful to graduate students to develop critical thinking ability by way of solving problems/numerical using basic & advance knowledge and concepts

**Sense of inquiry:** It is expected that the course curriculum will develop an inquisitive characteristic among the students through appropriate questions, planning and reporting experimental investigation.

**Skilled project manager:** The course curriculum has been designed in such a manner as to enabling a graduate student to become a skilled project manager by acquiring knowledge about mathematical project management, writing, planning, study of ethical standards and rules and regulations pertaining to scientific project operation.

**Ethical awareness/reasoning:** A graduate student requires understanding and developing ethical awareness/reasoning which the course curriculums adequately provide.

**Lifelong learner:** The course curriculum is designed to inculcate a habit of learning continuously through use of advanced ICT technique and other available techniques/books/journals for personal academic growth as well as for increasing employability opportunity.

Value Added Course (VAC): A value added audit course is a non-credit course which is basically meant to enhance general ability of students in areas like soft skills, quantitative aptitude and reasoning ability - required for the overall development of a student and at the same time crucial for industry/corporate demands and requirements. The student possessing these skills will definitely develop acumen to perform well during the recruitment process of any premier organization and will have the desired confidence to face the interview. Moreover, these skills are also essential in day-to-day life of the corporate world. The aim is to nurture every student for making effective communication, developing aptitude and a general reasoning ability for a better performance, as desired in corporate world. There shall be four courses of Aptitude in Semester I, II, III & IV semesters and two courses of Soft Skills in III & IV Semesters and will carry no credit, however, it will be compulsory for every student to pass these courses with minimum

45% marks to be eligible for the certificate. These marks will not be included in the calculation of CGPI. Students have to specifically be registered in the specific course of the respective semesters.

**Skill Enhancement Course:** This course may be chosen from a pool of courses designed to provide value-based and/or skill-based knowledge.

**Generic/Open Elective Course (OEC):** Open Elective is an interdisciplinary additional subject that is compulsory in a program. The score of Open Elective is counted in the overall aggregate marks under Choice

Based Credit System (CBCS). Each Open Elective paper will be of 3 Credits in III, IV and VI semesters. Each student has to take Open/Generic Electives from department other than the parent department. Core / Discipline Specific Electives will not be offered as Open Electives.

**Mandatory Course (MC):** This is a compulsory course but audit that does not have any choice and will be of 3 credits. Each student of B.Sc. (H). Program has to compulsorily pass the Environmental Studies and Human values & professional Ethics and NSS.

#### C. Program Outcomes of Bachelot of Buisness Administration

- PO:1.The students can apply knowledge of management theories and practices to solve business problems.
- PO:2.The students will be able to Foster Analytical and critical thinking abilities for databased decision making.
- PO:3.The students can be abreast with the e-business solutions in the current environment led by technology disruptions.
- PO:4.The students will be able to develop ethical and value-based leadership ability.
- PO:5.The students will be able to understand, analyze and communicate regional, national, global economic, legal and ethical aspects of business.

- PO:6. The students are able to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment.
- PO:7. Students are able to conceptualize a complex issue into a coherent written statement and oral presentation.
- PO:8. Students can demonstrate the fundamentals of creating and managing innovation, new business development, and high-growth potential entities.
- PO:9. Students can function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- PO:10. Develop Ethical Practices and Imbibe Values for better Corporate Governance.

#### **D. Program Specific Outcomes:**

PSO:1. Understand the dynamic and complex working environment of Business.

PSO:2. Determine the various PEST (Political, Economic, and Social Technological) factors influence on changes of business environment.

PSO:3. Analyze the various aspect of business research in the area of marketing, human resource and finance.

#### E. Program Educational Objectives (PEO's)

After successful completion of the program, the:

- PEO1: Students will exhibit understanding of broad business concepts and principles.
- PEO2 :Students will exhibit critical thinking skills to address diverse business challenges and opportunities.
- PEO3 :Model business professionalism and demonstrate effective written and oral communication skills.

#### F. Pedagogy & Unique practices adopted:

—Pedagogy is the method and practice of teaching, especially for teaching an academic subject or theoretical concept. In addition to conventional time-tested lecture method, the institute will emphasize on experiential learning:

Role Play & Simulation: Role- play and simulation are forms of experiential learning. Learners take on different roles, assuming a profile of a character or personality, and interact and participate in diverse and complex learning settings. Role- play and simulation function as learning tools for teams and groups or individuals as they "play" online or face-to-face. They alter the power ratios in teaching and learning relationships between students and educators, as students learn through their explorations and the viewpoints of the character or personality they are articulating in the environment. This student-centered space can enable learner-oriented assessment, where the design of the task is created for active student learning. Therefore, role-play& simulation exercises such as virtual share trading, marketing simulation etc. are being promoted for the practical- based experiential learning of our students.

Video Based Learning (VBL) & Learning through Movies (LTM): These days technology has taken a front seat and classrooms are well equipped with equipment and gadgets. Video-based learning has become an indispensable part of learning. Similarly, students can learn various concepts through movies. In fact, many teachers give examples from movies during their discourses. Making students learn few important theoretical concepts through VBL & LTM is a good idea and method. The learning becomes really interesting and easy as videos add life to concepts and make the learning engaging and effective. Therefore, our institute is promoting VBL & LTM, wherever possible.

*Field/Live Projects:* The students, who take up experiential projects in companies, where senior executives with a stake in teaching guide them, drive the learning. All students are encouraged to do some live project other their regular classes.

*Industrial Visits:* Industrial visit are essential to give students hand-on exposure and experience of how things and processes work in industries. Our institute organizes such visits to enhance students' exposure to practical learning and work out for a report of such a visit relating to their specific topic, course or even domain.

MOOCs: Students may earn credits by passing MOOCs as decided by the college. Graduate level programs may award Honors degree provided students earn pre-requisite credits through MOOCs. University allows students to undertake additional subjects/course(s) (In-house offered by the university through collaborative efforts or courses in the open domain by various internationally recognized universities) and to earn additional credits on successful completion of the same. Each course will be approved in advance by the University following the standard procedure of approval and will be granted credits as per the approval. Keeping this in mind, University proposed and allowed a maximum of two credits to be allocated for each MOOC courses. In the pilot phase it is proposed that a student undertaking and successfully completing a MOOC course through only NPTEL could be given 2 credits for each MOOC course.

For smooth functioning and monitoring of the scheme the following shall be the guidelines for MOOC courses, Add-on courses carried out by the College from time to time.

- a) It will be necessary for every student to take at least one MOOC Course throughout the programme.
- b) There shall be a MOOC co-ordination committee in the College with a faculty at the level of Professor heading the committee and all Heads of the Department being members of the Committee.
- c) The Committee will list out courses to be offered during the semester, which could be requested by the department or the students and after deliberating on all courses finalize a list of courses to be offered with 2 credits defined for each course and the mode of credit consideration of the student. The complete process shall be obtained by the College before the end of June and end of December for Odd and Even semester respectively of the year in which the course is being offered. In case of a MOOC course, the approval will be valid only for the semester on offer.
- d) Students will register for the course and the details of the students enrolling under the course along with the approval of the Vice Chancellor will be forwarded to the Examination department within fifteen days of start of the semester by the Coordinator MOOC through the Principal of the College.
- e) After completion of MOOC course, Students will submit the photo copy of Completion certificate of MOOC Course to the Examination cell as proof.
- f) Marks will be considered which is mentioned on the Completion certificate of MOOC Course.
- g) College will consider the credits only in case a student fails to secure minimum required credits then the additional subject(s) shall be counted for calculating the minimum credits required for the award of degree.

Special Guest Lectures (SGL) & Extra Mural Lectures (EML): Some topics/concepts need extra attention and efforts as they either may be high in difficulty level or require experts from specific industry/domain to make things/concepts clear for a better understanding from the perspective of the industry. Hence, to cater to the present needs of industry we organize such lectures, as part of lecture-series and invite prominent personalities from academia and industry from time to time to deliver their vital inputs and insights.

Student Development Programs (SDP): Harnessing and developing the right talent for the right industry an overall development of a student is required. Apart from the curriculum teaching various student development programs (training

programs) relating to soft skills, interview skills, SAP, Advanced excel training etc. that may be required as per the need of the student and industry trends, are conducted across the whole program. Participation in such programs is solicited through volunteering and consensus.

*Industry Focused programmes:* Establishing collaborations with various industry partners to deliver the programme on a sharing basis. The specific courses are to be delivered by industry experts to provide practice-based insight to the students.

Special assistance program for slow learners & fast learners: write the note how would you identify slow learners, develop the mechanism to correct the knowledge gap. Terms of advance topics what learning challenging it will be provided to the fast learners.

*Induction program:* Every year 3 weeks induction program is organized for 1st year students and senior students to make them familiarize with the entire academic environment of university including Curriculum, Classrooms, Labs, Faculty/ Staff members, Academic calendar and various activities.

*Mentoring scheme:* There is Mentor-Mentee system. One mentor lecture is provided per week in a class. Students can discuss their problems with mentor who is necessarily a teaching faculty. In this way, student's problems or issues can be identified and resolved.

Competitive exam preparation: Students are provided with one class in every week for GATE/ Competitive exams preparation.

Extra-curricular Activities: organizing & participation in extracurricular activities will be mandatory to help students develop confidence & face audience boldly. It brings out their leadership qualities along with planning & organizing skills. Students undertake various cultural, sports and other competitive activities within and outside then campus. This helps them build their wholesome personality.

Career & Personal Counseling: - Identifies the problem of student as early as possible and gives time to discuss their problems individually as well as with the parents. Counseling enables the students to focus on behavior and feelings with a goal to facilitate positive change. Its major role lies in giving: Advice, Help, Support, Tips, Assistance, and Guidance.

Participation in Flip Classes, Project based Learning(A2 Assignment), Workshops, Seminars & writing & Presenting Papers: Departments plan to organize the Flip Classes, Project based Learning(A2 Assignment), workshops, Seminars & Guest lecturers time to time on their respective topics as per academic calendar. Students must have to attend these programs. This participation would be count in the marks of general Discipline & General Proficiency which is the part of course scheme as non-credit course.

Formation of Student Clubs, Membership & Organizing & Participating events: Every department has the departmental clubs with the specific club's name. The entire student's activity would be performed by the club. One faculty would be the coordinator of the student clubs & students would be the members with different responsibility.

Capability Enhancement & Development Schemes: The Institute has these schemes to enhance the capability and holistic development of the students. Following measures/ initiatives are taken up from time to time for the same: Career Counseling, Soft skill development, Remedial Coaching, Bridge Course, Language Lab, Yoga and Meditation, Personal Counseling

Library Visit & Utilization of QLRC: Students may visit the library from morning 10 AM to evening 8 PM. Library created its resources Database and provided Online Public Access Catalogue (OPAC) through which users can be accessed from any of the computer connected in the LAN can know the status of the book. Now we are in process to move from OPAC to KOHA.

| Accounting Concepts and Practices   | 7   |
|   | Nil  To provide an insight into the basics of accounting concepts and principle to prepare more realistic financial reports.  These concepts would be helpful to develop the conceptual knowledge and analytical skills to sort out the complexities in Corporate transactions.  Unit Title |

Accounting utility in present corporate world: Introduction of accounting, features and Objectives of preparing accounting. Functions of accounting, Limitations of accounting, Users of accounting, Difference between book keeping and accounting, Difference between accounting, concept of accountancy and accounting terms. GAAP (Generally accepted accounting principles): Accounting principles, concepts and conventions, Accounting standards required in to process the accounting system.

Unit II Financial Transaction Process 6

Accounting applications: Introduction of Accounting equations, complexities comes in accounting equations, numerical problem in accounting equations. Double entry system: Meaning of double entry system, nature and scope. Introduction to Journal, Ledger, Subsidiary books including cash book and Trial Balance with real business case handling.

#### Unit III Financial Compatibilities with Balance Sheet and BRS 10

Final accounts: Introduction to component of final account including, trading account and profit and loss account. Differentiate between gross profit and net profit, and utility of balance sheet for firms. Prepare final accounts by incorporating both simple and advanced adjustment generally prevails in cut-throat competitive business scenario. Introduction to BRS and its numerical assessment.

#### Unit IV Depreciation and Bills of Exchange 9

Depreciation accounts: Introduction to depreciation needs and causes of depreciation. Methods of depreciations. Prepare fixed assets accounts using both simple and complex adjustments including sale one part of machines. Bills of Exchange accounts: Definition, needs, scope and introduction to parties enrolled i.e. drawer, Drawer and payee, Preparation of bills of exchange accounts in the books of parties enrolled in dealing.

#### Detailed Syllabus (Semester wise /course wise)

#### SEMESTER 2 Year -1

| BB3201  | Title: Environmental Science   | LTPC                                   |
|---|--|--|
|   |  | 2002                                   |
| Version No.   | 1.1  |  |
| Course  | Nil  |  |
| Prerequisites   |  |  |
| Objectives  | Creating awareness among engineering students about the importance of environment, the effect of technology on the environment and ecological balance is the prime aim of the course.  |  |
| <b>Expected Outcome</b>   | Students will understand the transnational character of environmental problems and ways of addressing them, including interactions across local to global scales.  |  |
| Unit No.  |  | No. of hours(per<br>Unit)              |
| Unit I  | Introduction to Environmental Studies & Ecosystems   | 3                                      |
| and function of an evarious ecosystem s   | ature of environmental studies, Scope and importance, Need for public awareness cosystem, Energy flow in an ecosystem: food chains, food webs and ecological pyuch as:Forest, Grassland, Desert, Aquatic ecosystems (ponds, streams, lakes, rivers, oc   | ramids. Examples of                    |
| Unit II   | Natural Resources: Renewable & Non-renewable resources  land degradation, landslides (natural & man-induced), soil erosion and desertificat  | <u> </u>                               |
| Use and over-explostate). Food resource overgrazing, effects non renewable energy         | t and rehabilitation of project affected persons; problems and concerns with example<br>bitation of surface and ground water, floods, drought ,conflicts over water (in<br>se: World food problems, changes caused by agriculture and<br>of modern agriculture, fertilizer-pesticide problems with examples. Energy resources, use of alternate energy sources and growing energy needs. | ternational & inter-                   |
| Unit III  | Biodiversity and Conservation  | 5                                      |
| biodiversity services<br>nation; Endangered a<br>wildlife conflicts, bio                  | diversity: genetic, species and ecosystem diversity. Biogeographic zones of India. Is. Biodiversity patterns and global biodiversity hotspots, India as a mega-biodiversity and endemic species of India. Threats to biodiversity: Habitat loss, poaching of wiplogical invasions. Conservation of biodiversity: In-situ and Ex-situ conservation of                                     | y<br>Idlife, man-<br>biodiversity.     |
| Unit IV   | Environmental Pollution  | 4                                      |
| freshwater and mari   | ation and its types. Causes, effects and control measures of:a) Air pollution b) Water ne c) Soil pollution d) Noise pollution e) Thermal pollution. Nuclear hazards and anagement: Control measures of urban and industrial waste.  |  |
| Unit V  | Environmental Policies & Practices   | 5                                      |
| global warming, a<br>landslides.Wasteland<br>(Prevention and con-<br>enforcement of envir |  | ake, cyclones and ollution) Act. Water |
| Textbooks   | 1.Bharucha.E, Textbook of Environmental Studies for Undergraduate Courses  |  |
| Reference Books   | Kaushik Anubha, Kaushik CP, Perspectives in Environmental Studies, New Age Public 2. Rajagopalan, Environmental Studies from Crisis to Cure, Oxford University Press.  | cation.                                |
| Mode of<br>Evaluation   | Internal and External Examinations   |  |
