Study & Evaluation Scheme *Study Summary*

Name of the Faculty	Faculty of Management Studies
Name of the School	Quantum School of Business
Name of the Department	Department of Management Studies
Program Name	Masters of Business Administration
Duration	2 Years
Medium	English

Evaluation Scheme

Type of Papers	Internal Evaluation (%)	End Semester Evaluation (%)	Total (%)
Theory	40	60	100
Practical/ Dissertations/Project Report/ Viva-Voce	40	60	100
<i>Internal Evaluation Components (Theory Papers)</i>			
Mid Semester Examination	60 Marks		
Assignment –I	30 Marks		
Assignment-II	30 Marks		
Attendance	30 Marks		
<i>Internal Evaluation Components (Practical Papers)</i>			
Quiz One	30 Marks		
Quiz Two	30 Marks		
Quiz Three	30 Marks		
Lab Records/ Mini Project	30 Marks		
Attendance	30 Marks		
<i>End Semester Evaluation (Practical Papers)</i>			
ESE Quiz	40 Marks		
ESE Practical Examination	40 Marks		
Viva- Voce	20 Marks		

Structure of Question Paper (ESE Theory Paper)

The question paper will consist of 5 questions, one from each unit. Student has to Attempt all questions. All questions carry 20 marks each. Parts a) and b) of question Q1 to Q5 will be compulsory and each part carries 2 marks. Parts c), d) and e) of Q1 to Q5 Carry 8 marks each and the student may attempt any 2 parts.

Important Note:

1. The purpose of examination should be to assess the Course Outcomes (CO) that will ultimately lead to attainment of Programme Specific Outcomes (PSOs). A question paper must assess the following aspects of learning: Remember, Understand, Apply, Analyze, Evaluate & Create (reference to Bloom's Taxonomy). The standard of question paper will be based on mapped BL level complexity of the unit of the syllabus, which is the basis of CO attainment model adopted in the university.

2. Case Study / Caselet is essential in every question paper (wherever it is being taught as a part of pedagogy) for evaluating higher-order learning. Not all the courses might have case teaching method used as pedagogy.

3. There shall be continuous evaluation of the student and there will be a provision of real time reporting on QUMS. All the assignments will be evaluated through module available on ERP for time and access management of the class.

Program Structure – Master of Business Administration

Introduction

The 2-year Full-time MASTER OF BUSINESS ADMINISTRATION Course offered by the University aims to educate and prepare young graduates with the knowledge, analytical abilities, skills and aptitudes needed to provide business leadership in the rapidly changing and competitive global marketplace. The rigorous program aims in achieving the stated learning objectives through a series of standardized core courses and choice-based electives. The program provides a comprehensive foundation in the fundamentals of business management.

The Master of Business Administration Program subjects are designed in such a way that students grasp maximum knowledge related to Management and Specialized domains. It will help students towards enhancing employability and entrepreneurial ability of the graduates. In order to harness regional specialties and to meet region-specific needs the Quantum University modify the content of syllabus as per the regional demands and needs The Quantum university offering the specializations Finance, Marketing, Human Resource, Supply Chain and Operations, International Business and E-Commerce.

Experiential Learning Program (ELP)/ Hands On Training (HOT)

This program will be undertaken by the students in all the semesters and will be done through Projects. All these Projects will be compulsory. Semester I and II Projects will be subject specific. Summer Internship will be largely specialization domain specific and Semester IV Project will be assigned by the Academic Guide as mentioned below:

- Mega Project – I (Semester I)
- Mega Project – II (Semester II)
- Summer Internship 6 to 8 Weeks (End of Semester II)
- Live Project (Semester IV)

Choice Based Credit System (CBCS)

Choice Based Credit System (CBCS) is a versatile and flexible option for each student to achieve his target number of credits as specified by the UGC and adopted by our university.

The following is the course module designed for the B.C.A program:

Core competency: Students will acquire core competency computer application and in allied subject areas.

Program/Discipline Specific Elective Course (DSEC):

Skilled communicator: The course curriculum incorporates basics and advanced training in order to make a graduate student capable of expressing the subject through technical writing as well as through oral presentation.

Critical thinker and problem solver: The course curriculum also includes components that can be helpful to graduate students to develop critical thinking ability by way of solving problems/numerical using basic & advance knowledge and concepts of Computer Studies.

Sense of inquiry: It is expected that the course curriculum will develop an inquisitive characteristic among the students through appropriate questions, planning and reporting experimental investigation.

Skilled project manager: The course curriculum has been designed in such a manner as to enabling a graduate student to become a skilled project manager by acquiring knowledge about technical project management, writing, planning, study of ethical standards and rules and regulations pertaining to technical project operation.

Ethical awareness/reasoning: A graduate student requires understanding and developing ethical awareness/reasoning which the course curriculums adequately provide.

Lifelong learner: The course curriculum is designed to inculcate a habit of learning continuously through use of advanced ICT technique and other available techniques/books/journals for personal academic growth as well as for increasing employability opportunity.

Value Added Course (VAC): A value added audit course is a non-credit course which is basically meant to enhance general ability of students in areas like soft skills, quantitative aptitude and reasoning ability - required for the overall development of a student and at the same time crucial for industry/corporate demands and requirements. The student possessing these skills will definitely develop acumen to perform well during the recruitment process of any premier organization and will have the desired confidence to face the interview. Moreover, these skills are also essential in day-to-day life of the corporate world. The aim is to nurture every student for making effective communication, developing aptitude and a general reasoning ability for a better performance, as desired in corporate world. There shall be four courses of Aptitude in Semester I, II, III, IV, V semesters and two courses of Soft Skills in every Semesters and will carry no credit, however, it will be compulsory for every student to pass these courses with minimum 45% marks to be eligible for the certificate. These marks will not be included in the calculation of CGPI. Students have to specifically be registered in the specific course of the respective semesters.

Skill Enhancement Course: This course may be chosen from a pool of courses designed to provide value-based and/or skill-based knowledge.

Generic/Open Elective Course (OEC): Open Elective is an interdisciplinary additional subject that is compulsory in a program. The score of Open Elective is counted in the overall aggregate marks under Choice Based Credit System (CBCS). Each Open Elective paper will be of 3 Credits in II, III, IV, V and IV semesters. Each student has to take Open/Generic Electives from department other than the parent department. Core / Discipline Specific Electives will not be offered as Open Electives.

Non-Credit CGPA: This is a compulsory course but audit that does not have any choice and will be of 3 credits. Each student of B.C.A Program has to compulsorily pass the Environmental Studies and Human values & professional Ethics and NSS.

Program Outcomes (PO)

	<u>Key Words</u>	<u>Program Outcomes</u>
PO-01	Understanding Functional Skills	The program will help the students to understand the cross functional skills required to manage an organization.
PO-02	Improve Decision Making	The program will help the students in improving their decision making abilities, which is one of the prime objective of our program.
PO-03	Applying Principles and Theories	The program will help the students to apply the principles and theories of management and practice to solve the business problems.
PO-04	Understand and Analyze Global Business Environment	The students will be able to understand and analyze the global business environment and the practices which will help them to grow in the International market.
PO-05	Leadership Styles	The students will also come to know the various types of leadership styles required to handle the given situation in an organization.
PO-06	Developing Entrepreneurial Skills	The students will develop entrepreneurial skills after successful completion of the program.
PO-07	Coping with Changing Environment	The student will learn how to cope with the changing business environment.
PO-08	Ability to Lead Efficiently	The students will learn the ability to lead efficiently in given situation, which will help them to grow in the professional world.
PO-09	Developing Habit of Team Work	The program will also help the students to develop the habit of working in a group.
PO-10	Handling Real Business Situations	The program will help the students to demonstrate the ability and skill set required to handle the real business situations.

Program Specific Outcomes

PSO 1:- The program will make the students ready to move in the corporate world, with all the necessary interpersonal skill set required in the corporate world.

PSO 2:- The program also focused in creating the entrepreneurial attitude among the students which further help the students in establishing their own venture.

Program Educational Objectives (PEO's)

- PEO1.** Graduates of the MBA program will successfully integrate core, cross-functional and inter-disciplinary aspects of management theories, models and frameworks with the real world practices and the sector specific nuances to provide solutions to real world business, policy and social issues in a dynamic and complex world.
- PEO 2.** Graduates of the MBA program will possess excellent communication skills, excel in cross-functional, multi-disciplinary, multi-cultural teams, and have an appreciation for local, domestic and global contexts so as to manage continuity, change, risk, ambiguity and complexity.
- PEO 3.** Graduates of the MBA program will be appreciative of the significance of Indian ethos and values in managerial decision making and exhibit value centered leadership.
- PEO 4.** Graduates of the MBA program will be ready to engage in successful career pursuits covering a broad spectrum of areas in corporate, non-profit organizations, public policy, entrepreneurial ventures and engage in life-long learning.
- PEO 5.** Graduates of the MBA program will be recognized in their chosen fields for their managerial competence, creativity & innovation, integrity & sensitivity to local and global issues of social relevance and earn the trust & respect of others as inspiring, effective and ethical leaders, managers, entrepreneurs, intrapreneurs and change-agents.

Pedagogy & Unique practices adopted:

“Pedagogy is the method and practice of teaching, especially for teaching an academic subject or theoretical concept”. In addition to conventional time-tested lecture method, the institute will emphasize on experiential learning:

Role Play & Simulation: Role-play and simulation are forms of experiential learning. Learners take on different roles, assuming a profile of a character or personality, and interact and participate in diverse and complex learning settings. Role-play and simulation function as learning tools for teams and groups or individuals as they "play" online or face-to-face. They alter the power ratios in teaching and learning relationships between students and educators, as students learn through their explorations and the viewpoints of the character or personality they are articulating in the environment. This student-centered space can enable learner-oriented assessment, where the design of the task is created for active student learning. Therefore, role-play & simulation exercises such as virtual share trading, marketing simulation etc. are being promoted for the practical-based experiential learning of our students.

Video Based Learning (VBL) & Learning through Movies (LTM): These days technology has taken a front seat and classrooms are well equipped with equipment and gadgets. Video-based learning has become an indispensable part of learning. Similarly, students can learn various concepts through movies. In fact, many teachers give examples from movies during their discourses. Making students learn few important

theoretical concepts through VBL & LTM is a good idea and method. The learning becomes really interesting and easy as videos add life to concepts and make the learning engaging and effective. Therefore, our institute is promoting VBL & LTM, wherever possible.

Field/Live Projects: The students, who take up experiential projects in companies, where senior executives with a stake in teaching guide them, drive the learning. All students are encouraged to do some live project other their regular classes.

Industrial Visits: Industrial visit are essential to give students hand-on exposure and experience of how things and processes work in industries. Our institute organizes such visits to enhance students' exposure to practical learning and work out for a report of such a visit relating to their specific topic, course or even domain.

MOOCs: Students may earn credits by passing MOOCs as decided by the college. Graduate level programs may award Honors degree provided students earn pre-requisite credits through MOOCs. University allows students to undertake additional subjects/course(s) (In-house offered by the university through collaborative efforts or courses in the open domain by various internationally recognized universities) and to earn additional credits on successful completion of the same. Each course will be approved in advance by the University following the standard procedure of approval and will be granted credits as per the approval. Keeping this in mind, University proposed and allowed a maximum of two credits to be allocated for each MOOC courses. In the pilot phase it is proposed that a student undertaking and successfully completing a MOOC course through only NPTEL could be given 2 credits for each MOOC course.

For smooth functioning and monitoring of the scheme the following shall be the guidelines for MOOC courses, Add-on courses carried out by the College from time to time.

- a) It will necessary for every student to take at least one MOOC Course throughout the programme.
- b) There shall be a MOOC co-ordination committee in the College with a faculty at the level of Professor heading the committee and all Heads of the Department being members of the Committee.
- c) The Committee will list out courses to be offered during the semester, which could be requested by the department or the students and after deliberating on all courses finalize a list of courses to be offered with 2 credits defined for each course and the mode of credit consideration of the student. The complete process shall be obtained by the College before end of June and end of December for Odd and Even semester respectively of the year in which the course is being offered. In case of MOOC course, the approval will be valid only for the semester on offer.
- d) Students will register for the course and the details of the students enrolling under the course along with the approval of the Vice Chancellor will be forwarded to the

Examination department within fifteen days of start of the semester by the Coordinator MOOC through the Principal of the College.

- e) After completion of MOOC course, Student will submit the photo copy of Completion certificate of MOOC Course to the Examination cell as proof.
- f) Marks will be considered which is mentioned on Completion certificate of MOOC Course.
- g) College will consider the credits only in case a student fails to secure minimum required credits then the additional subject(s) shall be counted for calculating the minimum credits required for the award of degree.

Special Guest Lectures (SGL) & Extra Mural Lectures (EML): Some topics/concepts need extra attention and efforts as they either may be high in difficulty level or requires experts from specific industry/domain to make things/concepts clear for a better understanding from the perspective of the industry. Hence, to cater to the present needs of industry we organize such lectures, as part of lecture-series and invite prominent personalities from academia and industry from time to time to deliver their vital inputs and insights.

Student Development Programs (SDP): Harnessing and developing the right talent for the right industry an overall development of a student is required. Apart from the curriculum teaching various student development programs (training programs) relating to soft skills, interview skills, SAP, Advanced excel training etc. that may be required as per the need of the student and industry trends, are conducted across the whole program. Participation in such programs is solicited through volunteering and consensus.

Industry Focused programmes: Establishing collaborations with various industry partners to deliver the programme on sharing basis. The specific courses are to be delivered by industry experts to provide practice-based insight to the students.

Special assistance program for slow learners & fast learners: write the note how would you identify slow learners, develop the mechanism to correcting knowledge gap. Terms of advance topics what learning challenging it will be provided to the fast learners.

Induction program: Every year 3 weeks induction program is organized for 1st year students and senior students to make them familiarize with the entire academic environment of university including Curriculum, Classrooms, Labs, Faculty/ Staff members, Academic calendar and various activities.

Mentoring scheme: There is Mentor-Mentee system. One mentor lecture is provided per week in a class. Students can discuss their problems with mentor who is necessarily a teaching faculty. In this way, student's problems or issues can be identified and resolved.

Competitive exam preparation: Students are provided with one class in every week for GATE/ Competitive exams preparation.

Extra-curricular Activities: organizing & participation in extracurricular activities will be mandatory to help students develop confidence & face audience boldly. It brings out their leadership qualities along with planning & organizing skills. Students undertake various cultural, sports and other competitive activities within and outside then campus. This helps them build their wholesome personality.

Career & Personal Counseling: - Identifies the problem of student as early as possible and gives time to discuss their problems individually as well as with the parents. Counseling enables the students to focus on behavior and feelings with a goal to facilitate positive change. Its major role lies in giving: Advice, Help, Support, Tips, Assistance, and Guidance.

Participation in Flip Classes, Project based Learning(A2 Assignment), Workshops, Seminars & writing & Presenting Papers: Departments plan to organize the Flip Classes, Project based Learning(A2 Assignment), workshops, Seminars & Guest lecturers time to time on their respective topics as per academic calendar. Students must have to attend these programs. This participation would be count in the marks of general Discipline & General Proficiency which is the part of course scheme as non-credit course.

Formation of Student Clubs, Membership & Organizing & Participating events: Every department has the departmental clubs with the specific club's name. The entire student's activity would be performed by the club. One faculty would be the coordinator of the student clubs & students would be the members with different responsibility.

Capability Enhancement & Development Schemes: The Institute has these schemes to enhance the capability and holistic development of the students. Following measures/ initiatives are taken up from time to time for the same: Career Counseling, Soft skill development, Remedial Coaching, Bridge Course, Language Lab, Yoga and Meditation, Personal Counseling

Library Visit & Utilization of QLRC: Students may visit the library from morning 10 AM to evening 8 PM. Library created its resources Database and provided Online Public Access Catalogue (OPAC) through which users can be accessed from any of the computer connected in the LAN can know the status of the book. Now we are in process to move from OPAC to KOHA.

FIRST YEAR

SEMESTER 1

MB4101	Title: Professional Communication I	L T P C 1 0 2 2
Version No.	1.0	
Course Prerequisites	Nil	
Objectives	To enable students to understand the basic English grammar, speaking in English and communicate effectively.	
Expected Outcome	The students will be able to display competence in oral and written communication.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	English Grammar	5
Basic course to improve English grammar, Expand vocabulary, Tenses, Prepositions, Adverbs and Adjectives.		
Unit II	Interpersonal Skills	4
Introduction to interpersonal Relations, Self Introduction, Business presentations and speeches and Effective sales presentations.		
Unit III	Process of Communication	4
Introduction to Communication, Flow of Communication, Listening, Barriers of Communication and How to overcome barriers of communication.		
Unit IV	Stress Management	3
Introduction to Stress: Causes of Stress and managing Stress.		
Unit V	Personality Development	6
Personality Development - Role of motivation & body language, Filling the GAP- Grooming, Attitude and Personality.		
Text Books	1.Meenakshi Rama,Business Communication,Oxford. 2.Raymond.V.Lesikar,Business Communication, TMH.	
Reference Books	1. Covey Sean, Seven Habits of Highly Effective Teens, Fireside Publisher. 2. DaleCarnegie, How to win Friends and Influence People, New York: Simon and Schuster.

MB4104	Title: Organisational Behaviour	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	Nil	
Objectives	To acquaint the student with the determinants of intra -individual, inter-personal and inter-group behaviour in organisational setting and to equip them with behavioural skills in managing people at work.	
Expected Outcome	The student will have reliably demonstrated ability to analyze individual and group behavior and understand the implications of Organization behaviour in the process of management.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction	6
Organisational Behaviour- Concept and Emergence of OB; Nature and Theoretical frameworks; Disciplines contributing to the field of OB; Historical Background- Hawthorne Studies, Psychological foundations; Models of Organisational Behaviour, Challenges and Opportunities for Organisational Behavior; Ethics and Organisational Behaviour.		
Unit II	Individual Behaviour	8
Personality, Values and Attitudes, Perception, Learning- Behaviourist, cognitive and social learning; Stress at work; Management's assumptions about people- McGregor's Theory X and Theory Y; Chris Argyris Behaviour Patterns; Motivation - Maslow's Need Hierarchy, Herzberg's Two Factors Theory, Vroom's Expectancy Theory; Theory of Intrinsic Motivation by Ken Thomas; Work – designing for creating motivating jobs.		
Unit III	Inter-personal Behaviour	6
Interpersonal communication and Feedback; Transactional Analysis (TA); Johari Window; Managing misbehaviour at work- Sexual abuse, Substance abuse, Cyberslacking, Aggression, and Violence.		
Unit IV	Group Behaviour	8
Group Dynamics, Cohesiveness and Productivity; Management of Dysfunctional groups; Group Decision Making; Organisational Politics. Leadership- Concept and Styles; Fielder's Contingency Model; House's Path -Goal Theory; Leadership Effectiveness; Sources, patterns, levels and types of conflict.		
Unit V	Organisational Processes	8
Organisational Climate- Concept, Determinants, and OCTAPACE model; Organisation Culture- Concept, Forming, Sustaining, and Changing a Culture, Organisational effectiveness- concept and measurement; Organisational change-resistance and management.		
Text Books	1. Stephen P. Robbins, Organisational Behaviour ,Pearson. 2. L.M.Prasad, Organisational Behaviour,Sultan Chand.

MB4105	Title: Marketing Management	L T P C 4 0 0 4
Version No.	1.0	
Course Prerequisites	Nil	
Objectives	The basic objective of the course is to understand the consumers' requirements and their behaviours and develop effective marketing strategies to achieve organizational objectives.	
Expected Outcome	Through this comprehensive and practical introduction to marketing management, students will be able to improve their ability to make effective marketing decisions, including assessing marketing opportunities and developing marketing strategies and implementation plans.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction to Marketing	10
Marketing Management: Concept, Nature, Scope and Importance of Marketing, Evolution of Marketing, Selling vs Marketing, CRM, Marketing Mix, Major elements of Marketing Environment and their Impact on Marketing Decisions, Marketing Myopia. Understanding Consumer Behavior: Buying motives, Factors influencing buying behavior, Buying habits, stages in consumer buying decision process, Theories of Consumer Behaviour, Consumer vs. Organizational/Industrial Buyer.		
Unit II	Market segmentation, Targeting and Positioning	8
Segmentation: Meaning, Factors influencing segmentation, Basis for segmentation, Segmentation of Consumer and Industrial markets. Targeting: Meaning, Basis for identifying target customers, Target Market Strategies. Positioning: Meaning, product differentiation strategies, tasks involved in positioning. Branding: Concept of Branding, Brand Types, Brand equity and Branding Positioning.		
Unit III	Product and Pricing Decisions	8
Product Decisions: Concept, product hierarchy, New Product Development, Diffusion Process, Product Life cycle, Product Mix Strategies, The New Product (Consumer) Adoption Process. Packaging / Labeling: Packaging as a marketing tool, Requirement of good packaging, Role of labeling in packaging. Pricing Decisions: Pricing as a Marketing Variable-its Role and Importance, Price vs. Non-Price Competition, Factors Influencing Price Determination, Pricing Policies and Strategies.		
Unit IV	Place and Promotion Decisions	8
Place Decision: Meaning, Purpose, Marketing Intermediaries, Channel Management Decisions- Selection, Motivation and Evaluation of Individual Middlemen, Channel conflict, Multilevel Marketing (Network Marketing), Retailing and Wholesaling. Promotion Decisions: Nature, Objectives and Importance of Promotion, Communication Process, Promotion Mix and Methods, Advertising, Public Relations, Sales Promotion, Personal Selling and Direct Marketing, Surrogate Advertising and Guerrilla Marketing.		
Unit V	Digital Marketing	8
Digital Marketing: Meaning, Features, Functions, Growth and benefits of Online Marketing, different forms, Green marketing; Cyber marketing; Relationship marketing. Global Marketing: Current Scenario, Global Marketing environment, Entry strategies, Global P's of Marketing. Legal, Ethical and Social Aspects of Marketing: Consumerism; Consumer Protection Measures in India; Ethical Marketing; Corporate Social Responsibility.		
Text Books	1. Philip Kotler, Marketing Management: A South Asian Perspective, Pearson Education. 2. V.S. Ramaswamy, Marketing Management, Macmillan.

MB4106	Title: Statistics for Managers	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	Nil	
Objectives	To train the students to use various statistical methods in order to understand, analyze and interpret various business, managerial and economic problems	
Expected Outcome	The students will be able to develop solutions in business decision making using various statistical tools.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction to Statistics	6
Introduction to Statistics – Definition and characteristics of Statistics, scope, function and limitations of statistics Data – Data Sources, Data Classification, Array, Frequency distribution (discrete and continuous), Presentation (line, bar, rectangle, pie diagram, histograms, frequency polygons, frequency curves), advantages and Limitations of Diagrams and Graph, Tabulation- Types of tables.		
Unit II	Data Analysis	7
Measures of Central Tendency: arithmetic mean, weighted mean, geometric mean, harmonic mean, position and locational average, median, mode – advantages and disadvantages of each. Measures of Dispersion: importance, range, variance, Quartile Deviation- Mean Deviation and Standard Deviation, Skewness: measures of coefficient and Kurtosis.		
Unit III	Probability	8
Probability – Meaning, types: classical, relative frequency, subjective, Addition theorem, Multiplication theorem, Conditional Probability, Concept of Random Variable and its mathematical expectation. Bayes’ theorem. Probability theoretical distributions – Binomial, Poisson and Normal.		
Unit IV	Correlation and Regression	7
Correlation analysis – Meaning, Types of Correlation, Scatter Diagram, Karl Pearson and Spearman Rank Correlation., Concurrent deviation, Coefficient of Determination. Regression analysis – Meaning, method of least squares, Regression Coefficients and properties, Simple/partial and Multiple correlation and Regression.		
Unit V	Time series and Index numbers	7
Time Series Analysis – Introduction to time series, Objectives of time series, Identification of trend, Components of time series, Variations in time series, Methods of Trend Analysis, Choosing appropriate forecasting model. Index Numbers - Meaning, Types of Index Numbers, Methods of Construction of Index Numbers; Problems in Construction, Importance of Index Numbers in Managerial Decision Making.

MB4107	Title: Financial Accounting	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	Nil	
Objectives	The main objective of this course is to acquaint the students with fundamental concepts and processes of accounting so that they are able to appreciate the nature of item presented in the annual accounts of an organization. Further, it aims at familiarizing the student with those significant tools and techniques of financial analysis, which are useful in the interpretation of financial statements. These tools and techniques form an important part of management planning and control systems.	
Expected Outcome	After completion of the course the students will be expert in preparation and analysis of Financial statements.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Overview	6
Accounting concepts, conventions and principles; Accounting Equation, International Accounting principles and standards; Objectives of Accounting, Matching of Indian Accounting Standards with International Accounting Standards.		
Unit II	Mechanics of Accounting	10
Double entry system of accounting, journalizing of transactions; ledger posting and trial balance ,preparation of final accounts, Profit & Loss Account, Profit & Loss Appropriation account and Balance Sheet, Policies related with depreciation, inventory and intangible assets like copyright, trademark, patents and goodwill.		
Unit III	Analysis of financial statement	8
Ratio Analysis- solvency ratios, profitability ratios, activity ratios, liquidity ratios, market capitalization ratios; Common Size Statement; Comparative Balance Sheet and Trend Analysis of manufacturing, service and banking organizations.		
Unit IV	Funds Flow Statement	8
Meaning, Concept of Gross and Net Working Capital, Preparation of Schedule of Changes in Working Capital, Preparation of Funds Flow Statement and its analysis.		
Unit V	Cash Flow Statement	8
Various cash and non-cash transactions, flow of cash, difference between cash flow and fund flow, preparation of Cash Flow Statement and its analysis.

MB4108	Title: Managerial Economics	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	Nil	
Objectives	The basic objective of the course is to understand the relative importance of Managerial Economics and know that how principles of managerial economics can aid in achievement of business objectives.	
Expected Outcome	This course would provide students with the knowledge, tools and techniques to make effective economic decisions under conditions of risk and uncertainty.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction	6
Introduction to Managerial Economics, Evolution, Nature, Scope and Significance, Circular Flow in an Economy, Managerial Economics: Micro and Macro Economics.		
Unit II	Market Forces: Demand and Supply	7
Demand Analysis: Theory of demand; Objectives of demand analysis and determinants of demand; Elasticity of demand and its measurement methods; importance in decision-making. Supply Analysis: Objective of supply analysis; Determinants of supply, Elasticity of supply.		
Unit III	Production Function and Cost Analysis	6
Theory of Production and Cost Analysis; Cobb Douglas Production Function, Laws of Production and analysis; Short run and Long run average cost curves and their analysis; Economies and Diseconomies of scale.		
Unit IV	Market Structures	7
Pricing Decision: Pricing under different Market Structures: Perfect and Imperfect (Monopoly, Duopoly, Monopolistic Competition, Oligopoly Markets); Collusive and Non-Collusive Oligopoly; Baumol's Marries' and O. Williamsons Model.		
Unit V	Factor Pricing	8
Determination of Factor Pricing; Marginal Productivity Theory; Classical, Neo-Classical and Keynesian Theory of Interest; Modern Theory of Profit; Pareto Optimality Conditions; National Income; Concepts and various methods of its measurement; Inflation: types and causes.		
Text Books	1. D.N. Dwivedi, Managerial Economics, Vikas Publishing House. 2. Graig H. Petersen, Managerial Economics, Pearson Education.

MB4109	Title: Human Resource Management	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	Nil	
Objectives	The objective of the course is to familiarize the students about the different aspects of managing people in the organizations.	
Expected Outcome	The students will be able to effectively contribute to organizations by development by implementation of employee recruitment, Selection, retention plans and processes .	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction	7
Conceptual foundations; Human aspect of management, Human Relations; Human Resource Management-:Concept, Scope and Importance, competencies of HR Manager, employer branding and competency mapping, changing role of HRM: Workforce diversity, technological change, Restructuring and rightsizing, Empowerment; TQM and managing ethical issues.		
Unit II	Human Resource Planning	6
Assessing Human Resource requirements: Human resource forecasting, Work load analysis, Job analysis, Job description and specifications, Job design, Job characteristic approach to job design.		
Unit III	Recruitment and Training	7
Factors affecting recruitment; Sources of recruitment (internal and external); Basic selection model; Psychological tests for selection; Interviewing; Placement and Induction; Job Changes- Transfers, Promotions, and Separations; An overview of Training and Development; Emerging trends in Recruitment, Selection, and development.		
Unit IV	Compensation Management and Appraisal System	8
Compensation Management- Job Evaluation, Base Compensation and Supplementary Compensation; Innovations in Compensation Management- Pay Band System, ESOP, Flexi-time Schedules, Performance Appraisal- Concept, Objectives and Methods; Traditional and Modern Methods- MBO, 360 Degree Appraisal, Behaviourally Anchored Rating Scale, Potential Appraisal and Human Resource Audit.		
Unit V	Emerging Horizons of HRM	8
Concept, importance, and models of International HRM; Challenges of International HR Managers; Global HR practices; E-HRM; HRIS (Human Resource Information System); Measuring intellectual capital; Impact of HRM practices on organizational performance; contemporary issues in Human Resource Management.		
Text Books	1.K.Ashwathappa,Human Resource Management, TMH. 2.VSP Rao,Human Resource Management,Excel Books.

MB4202	Title: Legal Aspects of Business	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	Nil	
Objectives	The basic objective of the course is to provide basic understanding of law of contract, Negotiable Instruments Act, Law of Insurance and Law of Partnership for the purpose of conducting business and to create an awareness about important legislations namely Sale of Goods Act, Consumer Protection Act, Factories Act having impact on business.	
Expected Outcome	Upon successfully completing the course, candidates will be able to acquire a sound understanding of the legal aspects of the law affecting businesses and develop reasoning abilities by applying the principles of law in the business environment.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Laws of Contract (The Indian Contract Act, 1872)	8
Law of Contract: Definition, essentials and types of contracts, offer – definition and essentials, acceptance – definition and essentials, consideration – definition and essentials, exceptions to the rule, no consideration, no contract, doctrine of privity of contract, capacity of parties, free consent, quasi contract, legality of object, performance of contract, termination of contract, remedies for breach of contract. Law of Agency: Essentials, kinds of agents, rights and duties of agent and principal, creation of agency and termination of agency		
Unit II	The Negotiable Instruments Act, 1881	8
Negotiable instruments act 1881: Nature and characteristics of Negotiable instruments, kinds of negotiable instruments – promissory notes, bills of exchange and cheques. Parties to negotiable instruments, Negotiation, presentment, discharge and dishonour of negotiable instruments. Law of partnership: Definition, essentials of partnership, formation of partnerships, kinds of partners, authorities, rights and liabilities of partners, registration of partnership and dissolution of partnership firm.		
Unit III	The Companies Act, 2013	7
Companies Act: definition, characteristics and kinds of companies, steps in formation of company. Memorandum of association, articles of association, prospectus. Directors: appointment, power, duties and liabilities, meeting and resolutions: types of meetings. Auditor: appointment, rights and liabilities and modes of winding up of a company.		
Unit IV	The Sale of Goods Act, 1930	6
Sale of goods Act: Essentials, sale v/s agreement to sell. Condition v/s warranties, rights of unpaid seller. Consumer Protection Act: Objectives, definition, consumer protection council and state consumer protection council.		
Unit V	The Information Technology Act, 2000	7
The Information Technology Act, 2000: Definition, Digital Signature, Electronic Governance, Attribution, Acknowledgment and Dispatch of Electronic Records, Sense Electronic Records and Sense Digital Signatures, Regulation of Certifying Authorities, Digital Signature Certificates, Duties of Subscribers, Penalties and Offences. The Right to Information Act, 2005: Right to know, Salient features of the Act, obligation of public Authority, Designation of Public Information officer, Request for obtaining information, Duties of a PIO, Exemption from disclosure of information, Partial disclosure of information, In formation commissions, powers of Information Commissions, Appellate Authorities, Penalties and Jurisdiction of courts.		
Text Books	1. M.C. Kuchhal & Vivek Kuchhal, Business Law, Vikas Publication. 2. N D Kapoor, Elements of Mercantile Law, Sultan Chand & Sons.	
Reference Books	1. S.S. Gulshan, Business Law Including Company Law, New Age International Private Limited. 2. Ravindra Kumar, Legal Aspects of Business, Cengage Learning. 3. V.K. Agrawal, Consumer Protection: Law and Practice, Bharat Law House. 4. Nandan Kamath, Law relating to Computer Internet and E-Commerce (A Guide to cyber Laws), Universal Law Publishing.	
Mode of Evaluation	Internal and External Examinations

MB4203	Title: Cost and Management Accounting	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	Nil	
Objectives	The objective of this course is to expose the students to the applied aspect of accounting and making them familiar with the techniques of using Accounting information for decision making.	
Expected Outcome	The students should be in a position to make effective use of accounting information in resolving the problems, which they may face as managers.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Overview	8
Accounting for Management, Role of Cost in decision making, Comparison of Management Accounting and Cost Accounting, types of cost, cost concepts, Elements of cost - Materials, Labour and overheads and their Allocation and Apportionment, preparation of Cost Sheet, Methods of Costing, Reconciliation of Cost and Financial Accounting.		
Unit II	Marginal Costing	7
Marginal Costing versus Absorption Costing, Cost-Volume-Profit Analysis and P/V Ratio Analysis and their implications, Concept and uses of Contribution & Breakeven Point and their analysis for various types of decision-making like single product pricing, multi product pricing, replacement and sales etc.		
Unit III	Differential Costing, Incremental Costing and Budgeting	9
Concept, uses and applications, Methods of calculation of these costs and their role in management decision making like sales, replacement, buying etc. Concept of Budget, Budgeting and Budgetary Control, Types of Budget, Static and Flexible Budgeting, Preparation of Cash Budget, Sales Budget, Production Budget, Materials Budget, Capital Expenditure Budget and Master Budget, Advantages and Limitations of Budgetary Control.		
Unit IV	Standard Costing	8
Concept of standard costs, establishing various cost standards, calculation of Material Variance, Labour Variance, and Overhead Variance, and its applications and implications.		
Unit V	Neo Concepts for Decision Making	8
Activity Based Costing, Cost Management, Value Chain Analysis, Target Costing & Life Cycle Costing : concept, strategies and applications of each. <i>Responsibility Accounting & Transfer Pricing</i> : Concept and various approaches to Responsibility Accounting, concept of investment center, cost center, profit center and responsibility center and its managerial implications and Absorption Costing.		
Text Books	1. I M Pandey , Management Accounting, Vikas Publications. 2. Ravi M. Kishore, Cost and Management Accounting, Taxmann.	
Reference Books	1. Khan and Jain, Management Accounting, Tata McGraw-Hill. 2. P.K. Sinha, Accounting and Costing for Management, Excel Books.	
Mode of Evaluation	Internal and External Examinations	
Recommendation by Board of Studies on	26-08-2021	
Date of approval by the Academic Council	14-11-2021	

Paper Code	MB4203	BL	Employability (Em)/ Skill(S)/ Entrepreneurship (En)/ None (Use , for more than One)
Paper Title	<i>Cost and Management Accounting</i>		
Course outcomes	<i>Upon successful completion of the course, students would be able to:</i>		
CO 1	Students would be able to get a clear picture of cost concept; role of management accounting in the business, students will be able to take a decision while solving the problems of Business.	2	En/Em/S
CO 2	Students would understand about profit planning, absorption costing, marginal costing, Break Even Analysis, make or buy decisions, cost reduction and cost control.	3	En/Em/S
CO 3	Students would analyse the motive behind preparing the various budgets, establishing a budgetary control system and its administration, Evaluating the real problems while preparing the budget in Business.	4	En/Em/S
CO 4	Students would be able to determine standard cost and its types, determine total standard cost and variances and its applicability in real Business world.	5	En/Em/S
CO 5	Students would be able to determine various neo cost concepts for decision making and its applicability in real Business world, students would also be evaluate and design the plan for new business on the basis of Neo concept for decision making.	4	En/Em/S

MB4204	Title: Operations Research	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	None	
Objectives	To equip the students with techniques of data analysis, to grasp the various optimization techniques.	
Expected Outcome	Students will be able to facilitate quantitative solutions in business decision making under conditions of certainty, risk and uncertainty.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction and Linear Programming	6
Introduction: Basic Concepts, Scope, Characteristics, Models and their role in Decision-Making, Linear Programming: Basic Concepts, Formulation, Graphical and Simplex Methods, Duality and Sensitivity Analysis		
Unit II	Assignment and Transportation	8
Assignment: Mathematical Formulation of Assignment Fundamental Theorems, Hungarian Method for Assignment Problem, Unbalanced Assignment Problem, Variations in Assignment Problem, Transportation Models: Mathematical Formulation, Forms of Transportation Problem, Feasible Solution, Initial Basic Feasible Solutions by North West Corner, Least Cost and VAM Methods and Moving towards Optimum Solution by Stepping Stone and MODI methods, Degeneracy in Transportation Problem and Maximization in Transportation Problems.		
Unit III	Decision Theory and Game Theory	7
Decision Theory: decision under uncertainty- Maxmin & Minmax, decision under Risk- Expected Value, decision tree problems. Game theory: Characteristics, Theory of games- formulation of game models, Two person Zero sum games & their solution, 2 x N and M x 2 games and pure with saddle point.		
Unit IV	Simulation and Replacement Model	8
Simulation: Definition, Types, Uses, Limitations and Phases of Simulation, Even Type, Monte-Carlo Simulation, Queuing Theory: Waiting Line Models. Replacement model: Replacement Problems: Replacement of items that deteriorate with time; Replacement of items that fail completely and staffing problem.		
Unit V	Job Sequencing and PERT/CPM	6
Assumptions, Processing and Job sequencing on two and three machines, Project Management by PERT and CPM.		
Text Books	1. J K Sharma, Operations Research - Theories and Applications, Macmillian. 2. Prem Kr Gupta, D S Hira, Operations Research, S. Chand .	
Reference Books	1. Hamdy A. Taha, Operations Research - An Introduction, Prentice Hall. 2. S Kalavathy, Operations research, Vikas. 3. S D Sharma, Operations Research, KNRN.

Version No.	1.0	
Course Prerequisites	Nil	
Objectives	Objective: To understand the sources of finance for determining the capital structure and assess budgets for new projects and working capital requirements.	
Expected Outcome	After completion of the course the students will be familiar with all functions of Finance Manager.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Basics of Financial Management	8
Nature, Objectives and Scope, Modern Concept of Finance, Financial Decision- Types of Financial Decisions, Role of Finance Manager, Risk Return Framework for Financial Decision Making and Time Value of Money.		
Unit II	Capital Budgeting	8
Capital Budgeting process, Project Selection. Estimation of project cash flows, Capital Budgeting Techniques: Payback Period Methods, Average rate of return, Net Present Value methods, IRR, Benefit-Cost ratio and Capital rationing.		
Unit III	Capital Structure	8
Determinants of Capital Structure, Capital structure theories, Cost of Capital, Operating and Financial Leverage; Management of Retained Earnings: Retained earnings & Dividend policy, Consideration in dividend policy, Forms of Dividends theories and Bonus Shares.		
Unit IV	Working Capital	10
Concept factors affecting working capital requirements, determining working capital requirements, Sources of working capital; Receivables Management, Inventory Management and Cash Management.		
Unit V	Lease financing	6
Concepts, types of leases, Advantages and disadvantages of leasing, Evaluation of lease agreement. Recent Developments—Introduction to concepts of EVA, MVA and CAPM.

MB4207	Title: Supply Chain and Operations Management	L T P C 4 0 0 4
Version No.	1.0	
Course Prerequisites	Nil	
Objectives	Through text and case studies, this course prepares for a study of different operational issues in manufacturing and services organizations as well as help understand the importance of major decisions in supply chain management for gaining competitive advantage.	
Expected Outcome	The students will be able to understand strategic and operational decisions in managing manufacturing and service organizations.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction, Product design, Facility location and layout, capacity planning	9
	Functions, Scope and challenges, manufacturing vs services, Transformation process model, Types of production system, Aspects of product design, Product development process, Process selection, simplification, standardization, specialization, diversification, Make or Buy decision, Capacity Planning Decisions, Facility Location Analysis, Basic Types of Facility Layouts.	
Unit II	Scheduling, Method study, Purchasing and Inventory management	9
	introduction to scheduling, method study, work measurement, Material planning and budgeting, Purchasing Management: Objectives, Functions, Procedure, vendor rating. Inventory Management: Objectives, Inventory Costs, Frequently used EOQ Model, Re-order Level.	
Unit III	Stores and Maintenance management; modern production techniques	9
	Stores Management: Nature, Layout, Classification and coding. Maintenance Management: Concepts; Objectives; Functions; Types of Maintenance. Quality control, Acceptance sampling, statistical process control, Just in time, Kanban System, Kaizen, Total quality Management, six sigma; QMS and ISO standards.	
Unit IV	Introduction to Supply Chain	8
	Evolution- Role in Economy - Importance - Decision Phases Supplier- Manufacturer-Customer chain (value chain analysis) - Enablers/ Drivers of Supply Chain Performance. Supply chain strategy - Supply Chain Performance Measures Bullwhip effect - mass supply vs lean supply structure.	
Unit V	Pricing and revenue management, Integration and role of IT in supply chain	8
	Pricing Management - Revenue management. Integration: Push system, Pull system, Demand driven strategies - SC Restructuring - SC Mapping - Role of Information Technology - Agile and Reverse supply chains.

MB4314	Title: Human Resource Planning and Development	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4109	
Objectives	To help students understand the Human Resource Planning, important and techniques to identify the optimum number of human resource for efficient human resource function related decisions.	
Expected Outcome	The student would acquire knowledge as to how to plan for manpower in an organization.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Human Resource Planning	7
Approaches to Human Resource Planning, Concept, importance, Need for Human Resource Planning, objectives Types of HR plan, Dimensions of Human Resource Planning, Approaches-Social Demand Approach, Rate of Return Approach and Manpower Requirement Approach. Human Resource Information System, Human Resource Planning Process, Approaches to Human Resource Planning, Benefits of Human Resource Planning, Problems/Barriers to Human Resource Planning.		
Unit II	Career planning	7
Concept, objective, Career Stages, Significance of Career Planning, Need and Components of Career Planning, Career planning vs. human resource planning, career planning vs. succession planning, Process of career planning and career development, Human Resources Evaluation: Human Resources Audit and Human Resource Accounting, Succession planning, HR Metrics.		
Unit III	Evolution and Concept of HRD	6
System concept, Role of HRD, Professionals, HRD climate and its element, HRD Matrix, HRD Function, HRD Process, Role of line Managers and supervisors in HRD.		
Unit IV	Assessing and implementing HRD Programmes	7
Task analysis, persons Analysis, Organizational analyses, Assessing HRD needs, HRD process models Training Vs HRD, HRD intervention, Quality of Work life. Empowerment, Creating HRD environment, Evaluation framework; collecting, data for evaluation, research design, issues concerning evaluation, assessing impact of HRD.		
Unit V	Organizational Culture and HRD	6
Work force diversity and HRD, Labor Market changes, Equal Employment Opportunity, adapting demographic changes and gender issues, HRD practices in manufacturing and services sector		
Text Books	1. VSP Rao, Human Resource Management, Excel Books. 2. L.M. Prasad, Human Resource Management, Sultan Chand & Sons	
Reference Books	1. K.Ashwathappa, HRM text & cases, Tata McGraw Hill.

MB4318	Title: Technology Innovation Management	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4207, MB4208	
Objectives	To train the students to use various statistical methods in order to understand, analyze and interpret various business, managerial and economic problems	
Expected Outcome	To facilitate objective solutions in business decision making under subjective conditions using various statistical tools.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction, Sources of Innovation and Design Selection	08
Importance and impact of technological innovation – Innovation funnel - sources of innovation – creativity – translating creativity into innovation - types of innovation - technology S-Curves - technology cycle - Dominant design selection (learning effects, network externalities) – multiple dimensions of value		
Unit II	Timing of Entry and Strategic Direction	07
Timing of entry: first mover advantages and disadvantages, factors influencing optimal timing, strategies to improve timing options Defining organization's strategic direction – assessing firms current position – identifying core competencies and capabilities – strategic intent		
Unit III	Choosing and Protecting Innovation Projects	07
Quantitative and Qualitative methods of choosing innovation projects Collaboration strategies: reasons for going solo; advantages, types and mode of collaboration, choosing and monitoring partners Protecting innovation: patents, trademarks, copyrights; trade secrets; effectiveness, use and advantages of protection		
Unit IV	Organization and management of Innovation Process	06
Organizing for innovation: size and structural dimension of firms, modularity and loosely coupled organizations, managing innovation across borders Managing new product development process: objectives, sequential vs partly parallel development process, project champions, role of customers and suppliers in development process, tools for improving and measuring new product development process and performance		
Unit V	Managing team and crafting deployment strategy	06
Managing new product development team: constructing new product development teams, structure and management of new product development teams, Crafting a deployment strategy:: launch timing, licensing and compatibility, pricing, distribution, marketing

MB4319	Title: Service Operations Management	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4207 MB4208	
Objectives	To Understand the unique challenges in managing excellent service operations.	
Expected Outcome	To develop the ability to design and deliver operations to achieve competitive advantage in services	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction to Services and Service Strategy	06
Nature and characteristics of services - classification and analysis of service operations Service strategy - competitive service strategies - strategic service vision		
Unit II	Service Design and Managing Human Resource	07
New service design and development – service system design and delivery process – technology and automation in services – service encounter Human resource planning and employee selection – managing people in service organization – work measurement in services		
Unit III	Service Quality and Demand Management	07
Defining service quality – quality service design – service process control – TQM tools – quality philosophy and performance excellence – service recovery and service guarantee Forecasting demand in services – Smoothing customer demand in services		
Unit IV	Service Facility Design and Location, Capacity Management	07
Service facility design – process analysis of facility layout – facility location decision factors – quantitative models for facility location Service capacity management – Yield management – Resource and workforce scheduling		
Unit V	Waiting Line, Queuing, Inventory and Supply Chain Management	07
Characteristics of Queuing system – queuing models Service inventory management – Service supply chains – Processes in service supply chain

MB4331	Title: Planning and Control of Operations	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4207	
Objectives	To understand the concept of Excellence in manufacturing – Traditional & current concepts.	
Expected Outcome		
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction	06
	Need, Functions - Routing, Scheduling, shop loading and dispatch, follow up. Relations with other departments, Routing-Process layout indicating flow Chart of material from machine to machine. Dispatch in production control-documentation.	
Unit II	Demand Forecasting	07
	Forecasting as a planning tool, Why do we forecast, Forecasting time horizon, Design of forecasting systems, Developing the logic of forecasting, Sources of data, Models for forecasting, Extrapolative methods using time series, Causal methods of forecasting, Accuracy of forecasts, Using the forecasting system.	
Unit III	Aggregate Production Planning	08
	Planning Hierarchies in operations, Aggregate Production planning, Need for Aggregate Production planning, Alternatives for managing demand, Alternatives for managing supply, Basic strategies for aggregate production planning, Aggregate production planning methods, Master Production Scheduling.	
Unit IV	Resource Planning	07
	Dependent Demand Attributes, Planning a framework – the basic building blocks: Multiple levels in products, Product Structure, The Bill of Materials, Time phasing of the requirements, Determining the Lot Size, Incorporating Lead time information, Establishing the planning premises. MRP Logic, Using the MRP system, Capacity Requirements planning, Manufacturing Resources Planning (MRP II), Enterprise Resource Planning (ERP), Resource Planning in services	
Unit V	Scheduling of Operations	07
	Need for Scheduling, Scheduling – Alternative terms, Loading of machines, Scheduling Context, Scheduling of Flow Shops, Scheduling of Job Shops, Input-Output Control, Operational Control Issues in Mass production systems.	
Text Books	1. B.Mahadevan: Operations Management: Theory and Practice, Pearson.	
Reference Books	1. Operations Management, Terry Hill, Palgrave 2. The Fundamentals of Production Planning and Control, Stephen Chapman, Pearson 3. Operations Now, Byron Fitch, TMGH.	
Mode of Evaluation	Internal and External examinations	
Recommendation by Board of Studies on	23-07-2022	
Recommendation by Board of Faculties on	06-08-2022

MB4321	Title: Materials Management	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4207 MB4208	
Objectives	To understand how material management should be considered for profitability	
Expected Outcome	Student gains knowledge on effective utilisation of materials in manufacturing and service organisation	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction	07
Operating environment-aggregate planning-role, need, strategies, costs techniques, approaches, master scheduling-manufacturing planning and control system-manufacturing resource planning-enterprise resource planning-making the production plan		
Unit II	Materials planning	07
Materials requirements planning-bill of materials-resource requirement planning-manufacturing resource planning-capacity management-scheduling orders-production activity control-codification		
Unit III	Inventory Management	07
Policy Decisions-objectives-control -Retail Discounting Model, Newsvendor Model; EOQ and EBQ models for uniform and variable demand With and without shortages -Quantity discount models. Probabilistic inventory models.		
Unit IV	Purchasing Management	07
Establishing specifications-selecting suppliers-price determination-forward buying-mixed buying strategy-price forecasting-buying seasonal commodities-purchasing under uncertainty-demand management-price forecasting-purchasing under uncertainty-purchasing of capital equipment international purchasing		
Unit V	Warehouse Management	07
Warehousing functions – types - Stores management-stores systems and procedures-incoming materials control-stores accounting and stock verification-Obsolete, surplus and scrap-value analysis-material handling-transportation and traffic management -operational efficiency, productivity-cost effectiveness-performance measurement

MB4322	Title: Retail Distribution and Logistics	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4207, MB4208	
Objectives	To understand the need and importance of logistics in product flow.	
Expected Outcome	To enable an efficient method of moving products with optimization of time and cost	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction to logistics and distribution	08
Definition and Scope – Importance, Functions & Objectives – system perspective of distribution - marketing forces affecting distribution - distribution and logistics organization structure - logistics and supply chain structure - total logistics concept - planning for distribution and logistics - Customer Value Chain – importance and components of customer service - conceptual models of service quality - levels and measurement of customer service - customer service explosion		
Unit II	Distribution channels and outsourcing logistics	07
Channels of distribution: role of marketing channels – channel functions – channel structure –designing distribution channel – choice of distribution channels – factors affecting - role of logistics and support in distribution channels. Logistics requirements of channel members. Intermediaries: functions of intermediaries – types of intermediaries – variables in selecting channel members – motivating – training – evaluating channel members – modifyingchannel arrangementsLogistics outsourcing – catalysts, benefits, value proposition. Third and fourth party logistics.Selection of service provider.		
Unit III	Transportation and Performance measurement	07
Transportation management: Legal types - Modes of transportation – Transport mode selection –methods – transport costs – rate profiles – transport regulations – intra and interstate transport of goods. Performance Measurement – Need, System, Levels and Dimensions. Internal and External Performance Measurement. Logistics Audit. Total Logistics Cost – Concept, Accounting Methods. Cost – Identification, Time Frame and Formatting.		
Unit IV	Order Processing and Packaging	07
Order processing and Unitization. Defining Order Processing – order acquisition – order entry –document processing – status reporting – factors affecting processing time – Customer service. Unitization – functions of Packaging – concept of unitization – Palletization – Containerization –Costs of packaging – designing a package – packaging materials – choosing right materials		
Unit V	Current Trends	06
Logistics Information Systems – Need, Characteristics and Design. E-Logistics – Structure and Operation. Logistics Resource Management eLRM. Automatic Identification Technologies. Reverse Logistics – Scope, design and as a competitive tool. Global Logistics – Operational and Strategic Issues, ocean and air transportation. Strategic logistics planning. Green Logistics

MB4323	Title: Total Quality Management	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4207, MB4208	
Objectives	To learn the quality philosophies and tools in the managerial perspective.	
Expected Outcome	To apply quality philosophies and tools to facilitate continuous improvement and ensure customer delight.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction	07
	Quality – vision, mission and policy statements. Customer Focus – customer perception of quality, Translating needs into requirements, customer retention. Dimensions of product and service, Quality, Cost of quality.	
Unit II	Principles and philosophies of quality management	07
	Overview of the contributions of Deming, Juran Crosby, Masaaki Imai, Feigenbaum, Ishikawa, Taguchi techniques – introduction, loss function, parameter and tolerance design, signal to noise ratio. Concepts of Quality circle, Japanese 5S principles and 8D methodology	
Unit III	Statistical Process Control	07
	Meaning and significance of statistical process control (SPC) – construction of control charts for variables and attributed. Process capability – meaning, significance and measurement – Six sigma - concepts of process capability. Reliability concepts – definitions, reliability in series and parallel, product life characteristics curve. Total productive maintenance (TPM), Terotechnology. Business process Improvement (BPI) – principles, applications, reengineering process, benefits and limitations.	
Unit IV	Tools and Techniques of quality management	07
	Quality functions development (QFD) – Benefits, Voice of customer, information organization, House of quality (HOQ), building a HOQ, QFD process. Failure mode effect analysis (FMEA) – requirements of reliability, failure rate, FMEA stages, design, process and documentation. Seven Tools (old & new). Bench marking and POKA YOKE.	
Unit V	Quality Systems organization and implementation	07
	Introduction to IS/ISO 9004:2000 – quality management systems – guidelines for performance Improvements, Quality Audits, TQM culture, Leadership – quality council, employee involvement, motivation, empowerment, recognition and reward - TQM framework, benefits, awareness and obstacles.

MB4324	Title: International Business Laws	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4202	
Objectives	To expose the students to the legal and regulatory framework and their implications concerning global business operations.	
Expected Outcome	The students will able to understand the legal framework governing global business operations	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Legal Framework of IB	6
Nature and complexities; Code and common laws and their implications to business; International business contract – legal provisions; Payments terms; International sales agreements; Rights and duties of agents and distributors		
Unit II	Regulatory Framework of WTO	7
Basic principles and charter of GATT/WTO; GATT/WTO provisions relating to preferential treatment of developing countries; Regional groupings, subsidies, technical standards, anti-dumping duties and other non-tariff barriers, custom valuation and dispute settlement.		
Unit III	Legal Framework relating to different Modes of Internationalization	6
Legal Framework Relating to: International Licensing; Franchising; Join Ventures, Patents and trademarks; Technology transfer, Telecommunications. Legal Frame work relating to Electronic Commerce – Intellectual Property Rights.		
Unit IV	International Business Taxation	6
Electronic Commerce – Cross Border Transactions – On-line Financial Transfers – Legal Safeguards – International Business Taxation – Tax Laws – Multilateral and Bi-lateral treaties – Sharing of Tax revenues		
Unit V	Indian Laws Governing International Transactions	10
FEMA; Taxation of foreign income; Foreign investments; Setting up offices and branches abroad; Restrictions on trade in endangered species and other commodities.		
Text Books	5. Francis Cherunilam, International Business, PHI 6. Daniels, John, Ernest W. Ogram and Lee H. Redebungh, International Business, Environments and operations.

MB4325	Title: International Business Environment	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4209	
Objectives	To provide an overview of different factors that impact business at international level.	
Expected Outcome	The student will be able to analyze factors impacting international business.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction	6
International Business-- Nature, importance and scope; Modes of entry in to International Business; Frame work for analyzing international business environment; Economic, Technological, Socio-cultural, Political and legal environment; International Economic Environment-- International financial system; Institutional support to International Business-- UNO, IMF, World Bank; UNCTAD; WTO		
Unit II	Regional Blocks	7
Regional Economic Co-operation and Integration between Countries; Different levels of integration between Countries; European Union, NAFTA, ASEAN, EFTA, SAARC, SAPTA, The ANDEAN community, MERCOSUR.		
Unit III	Managing MNCs	6
Multinational Corporations: Conceptual Frame work of MNCs; MNCs and Host and Home Country relations; International Technology Transfers – importance and types, Foreign Technology Acquisition.		
Unit IV	Foreign Exchange Markets	8
Foreign Exchange Markets: Determining exchange rates; Fixed and flexible exchange rate system; Participants in the Foreign exchange markets; Cash and Spot exchange market; Exchange rate quotes; LERMS,; Factors affecting exchange rates; Foreign exchange and currency futures; Exchange rate arrangement in India; Overview of FEMA; Foreign Exchange Risk, Management of Risk in Foreign Exchange Markets: Foreign exchange derivatives– swaps, futures, options and forward contracts.		
Unit V	Foreign Investment	6
Foreign Investment: Capital flows – types and theories of foreign investment – Foreign investment flows and barriers. Recent Developments in International Business: Ecological issues; Social aspects		
Text Books	1.V K Bhalla, International Business Environment, Anmol Publications 2.Daniel, Radebaugh and Sullivan, International Business Environment, Pearson

MB4326	Title: EXIM Financing and Documentation	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4205	
Objectives	It gives an exposure to various trade procedures, documents and financing involved in an international business.	
Expected Outcome	The students will be able to understand the procedures and documents required for international business	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Intro to International Trade	8
	International Trade: Need and importance of International Trade – Recent Trends in World Trade – Leading players – India’s Foreign Trade – Commodity composition and Destination – India’s position in World merchandise trade and services – India’s Foreign Trade Policy.	
Unit II	Export Procedure	7
	Export Procedure: Starting an export firm – Selection of an export product – Market selection –Buyer selection - Registration procedure with Sales Tax, Central Exercise and various Boards and councils – Exim code number – Elements of export contract- Incoterms – Terms of payment and Letter of Credit.	
Unit III	Export Documentation	6
	Export Documentation: Types of documents – Transport, Negotiation and Insurance documents.	
Unit IV	EXIM Financing	7
	Export Finance: Sources of Finance - Role of commercial bank, EXIM Bank, ECGC and others – Export promotion Schemes – Insurance for Export – Types – export credit insurance – Risk Management – Types of risks – mitigation methods.	
Unit V	Import Procedure and Documentation	7
	Import Procedure and Documentation: Global sourcing – Types of global procurement – Tender – Negotiation – Contract and others – Customs regulations and import clearance formalities – Types of import licenses- Export Promotion Capital Goods Scheme (EPCG) license- Duty exemption scheme – Duty Entitlement Pass Book Scheme (DEPBS)- Import formalities for 100% EOUs and SEZs - Import Risk Management.	
Text Books	1. Aseem Kumar,Export and Import Management,Excel Books 2. Francis Cherunilam,International Business, PHI

MB4327	Title: Foreign Exchange Management and Currency Derivatives	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4205	
Objectives	To enable the students to have an in-depth understanding of the principles and procedures relating to Forex markets and different types of currency derivatives and its operations.	
Expected Outcome	The student will be able to understand the operations of Forex market	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Forex Market	6
The Foreign Exchange Market - Organisation – Spot Vs Forward Markets – Bid and Ask rates – Interbank Quotations – International Market Quotations – Cross Rates – Merchant Rates – FEDAI Regulations – Role of RBI		
Unit II	Exchange Rates System	7
Exchange Rates - Exchange rate systems – Gold Standard – Bretton Woods – Fixed Vs Floating Exchange Rate systems – Determinants of Exchange Rates – Exchange Controls.		
Unit III	Forex Transactions	6
Foreign Exchange Transactions – Purchase and Sale transactions – Spot Vs Forward transactions – Forward Margins – Interbank Deals – Cover deals – Trading – Swap deals – Arbitrage Operations – Factors determining Forward margins – Different types of Foreign exchange expositors.		
Unit IV	Types of Exchange Rates	6
Ready and Forward Exchange Rates – Principle types of Ready Merchant rates – Ready rates based on cross rates – Forward exchange contracts – Execution of Forward 2 contracts – cancellation and Extensions - Dealing position – Exchange position – Cash position.		
Unit V	Currency Derivatives	7
Currency Derivatives – Currency Forwards – Currency Futures – Currency Options – Exchange traded transactions – Financial Swaps – Forward Rate agreements – Interest Rate Options.

Salient features of Job Evaluation – Analytical and non-analytical techniques – Point factor rating; factor comparison; job classification; ranking ; Urwick Orr Profile Method; Hay Plan method; Decision Band method; job or role matching; market pricing; Computer assisted job evaluation.		
Unit III	Wages and Salary Administration	6
Concepts of minimum wage, living wage and fair wage; Wage Boards; Pay Commissions; Collective bargaining. Payscale surveys; Determinants for formulating wage structures; Pricing Jobs: pay levels; designing pay ranges and bands; Salary structures: graded salary structures; salary progression curves; Pay structure in practice: Basic salary, DA, Allowances, Bonus; Fringe benefits and Incentive schemes. Spot awards. Team incentives; Design of a pay roll system (using Accounting software). Legal Constraints on Pay System.		
Unit IV	Compensation Strategies	6
Job based pay, Skill based pay, competency based pay, and Market based pay, Pay for position; Pay for person; Pay for performance: variable pay; Rewarding excellence; Creating the strategic reward system. Best practices in 'pay for performance, Compensation as a retention strategy.		
Unit V	Rewarding Performance and Executive Compensation	8
Individual-based compensation; team-based compensation; Incentives: types of incentive plans: Taylor's differential piece rate system, Halsey Premium Plan, Rowan Premium Plan, Emerson Efficiency Premium Plan, Gantt Bonus Plan, Bedaux Premium Plan, Merrick Piece Rate System, Commission system; Gain sharing plans: Scanlon Plan, Rucker Plan, Improshare, Value added; Profit sharing plans and Cafeteria plan. Employee benefits and pensions. Policies and practice of benefits; Strategic Perspectives on Benefits, goals for Benefits, Benefits Need Analysis, principal types of benefits; Stock option and purchase plans using ESOP compensation. Pension understanding kinds of pension. Agency Theory and Executive Compensation; Principles of Executive Compensation; Factors affecting Executive compensation; Models of Executive Compensation: Optimal Contracting Model; Managerial Power Model; Trends of Executive compensation in India and abroad. International Compensation.

MB4413	Title:Performance Management	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	None	
Objectives	The purpose of this paper is to make aware of the students with the meaning, type and importance of performance management in the Organisation.	
Expected Outcome	Students will know about the different performance appraisal methods and mechanism of performance management.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction	9
Meaning, Objectives and scope of performance management Role of performance management, Characteristics of an ideal performance management system, Performance Management in different types of organizations (manufacturing, sales and service), Issues and Problems in Performance Management.		
Unit II	Measuring Performance	8
Determinants of performance, performance dimensions, approaches to measuring performance, diagnosing causes of poor performance, differentiating task from contextual performance, Performance Measurement Approaches. Process of Performance Management.		
Unit III	Employee Behaviour & Employee Development	9
Relationship between performance measurement systems and behavior; Influence of individual and group behavior on performance. Accountability issues arising out of performance measurement systems. Performance management and employee development: Personal Development plans, 360 degree feedback as a developmental tool; performance linked career planning and promotion policy.		
Unit IV	Performance Management Methods	9
Performance Consulting: Concept, the need for performance consulting, Role of performance consulting, and designing and using performance relationship maps, contracting for performance consulting services, implementing organization-wide performance improvement. Performance evaluation methods		
Unit V	Current Developments and Emerging Issues in Performance Management	9
Computation and evaluation of performance measures relevant in an organization structure including Economic value added (EVA). Devising separate measures in respect of managerial and divisional performance. Application of value-based management approaches to performance management. Modern performance measurement frameworks: Six Sigma, Forced ranking Balanced Score Card. Contemporary issues in performance management. Studying the impact of change in organization's structure, Talent management

MB4414	Title: Training and Development	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	NIL	
Objectives	To enable you understand the concepts, principles and process of training and development) To develop an understanding of how to assess training needs and design training programmers in an Organizational setting.	
Expected Outcome	The students will be able to know the levels, tools and techniques involved in evaluation training effectiveness.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction	7
Concepts and Rationale of Training and Development; overview of training and development systems; organizing training department; training and development policies; linking training and development to company's strategy; Requisites of Effective Training; Role of External agencies in Training and Development.		
Unit II	Training Needs Assessment	5
Meaning and purpose of TNA, TNA at different levels, Approaches for TNA, output of TNA, methods used in TNA.		
Unit III	Training and Development Methodologies	8
Overview of Training Methodologies- Logic and Process of Learning; Principles of Learning; Individual differences in learning, learning process, learning curve, learning management system; Criteria for Method Selection; Skills of an Effective Trainer; Use of Audio-Visual Aids in training; Computer Aided Instructions- Distance Learning, Open Learning, E- Learning; Technologies Convergence and Multimedia Environment. Development Techniques for enhancing decision-making and interpersonal skills, Case-study, in-basket exercise, special projects, multiple management Programme Learning, Action learning, Syndicate Work, Games, Action Maze, Role Play; Demonstration and Practice Monitoring; Coaching; Self Diagnostic Skills, Experience Learning, Discovery Learning, Brain Storming, Counseling, Position Rotation, Team Building, and Sensitivity Training .		
Unit IV	Designing Training and Development Programs	7
Organization of Training and Development programs, Training design, kinds of training and development programs- competence based and role based training; orientation and socialization; diversity training, choice of training and development methods, Preparation of trainers; developing training materials; E-learning environment; Flexible learning modules.		
Unit V	Evaluation of Training and Development	6
Reasons for evaluating Training and development programs, Problems in evaluation; Evaluation planning and data collection, different evaluation frameworks, Problems of Measurement and Evaluation; Costing of training, measuring costs and benefits of training program, obtaining feedback of trainees; Methods of evaluating effectiveness of Training Efforts.

MB4415	Title: Operations Strategy and Control	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4207 MB4208	
Objectives	To learn analytical approach and methodology for developing Manufacturing / Operations strategy.	
Expected Outcome	To understand essentials for implementing strategy and result of strategic decisions	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Operation strategy and competitiveness	07
Operations Strategy and Competitive dimensions - Operations and Corporate Strategy – A framework for Operations Strategy in Manufacturing, Services. - operation strategy matrix - five generic performance objectives - targeting and operations focus - Value Chain concept Focus , core competence and distinctive capabilities – stake holders & strategy - Linking manufacturing to Markets – strategic integration - Issues in New Product development Time to market		
Unit II	Capacity and Purchase-supply strategy	07
capacity strategy - - number and size of sites - capacity change - location of capacity purchasing and supply strategy - make or buy : vertical integration decision - contracting and relationships - types of arrangements - supply network dynamics - managing suppliers - purchasing and supply chain risk		
Unit III	Technology and Improvement strategy	07
process technology strategy - scale/scalability - degree of automation and coupling - product/process matrix - evaluation of process technology - challenges of information technology Improvement strategy - setting the direction - importance / performance mapping - developing operations capabilities strategic importance of product and service development		
Unit IV	Formulation and Implementation	07
Formulation of operation strategy - role and direction of alignment - timing - strategic sustainability - formulation analysis implementation - responsibility for implementation: staff and line in operations - four types of central operations function: typology and their information relationship - pre-requisites of effective implementation - project and process objectives		
Unit V	Monitoring and Control	07
Strategic vs operational control - types of control - balanced scorecard - tight and loose alignment- implementation risks - controlling risk: prevention, mitigation and recovery strategies - intervention risk - Type I and Type II errors in control - organizational learning: single and double loop learning - path dependencies and development trajectories - stakeholder power-interest grid

MB4416	Title: E Business Operations	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4207 MB4208	
Objectives	To understand all aspects of e business operations	
Expected Outcome	To enable student to develop a thorough understanding specific operational requirements of e businesses	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction	07
	Defining e business – Types of e-business – e business environment – e business marketplaces, markets and models – importance and challenges of e-business	
Unit II	Supply Chain Management	07
	Objectives and importance of SCM – Components of SCM – demand planning and forecasting- procurement – manufacturing and assembly – distribution – return – Types of SCM systems	
Unit III	Inventory Management and Transportation Scheduling	07
	Inventory management and transportation scheduling	
Unit IV	Order Processing and Packaging	07
	Order processing and Unitization. Defining Order Processing – order acquisition – order entry –document processing – status reporting – factors affecting processing time – Customer service. Unitization – functions of Packaging – concept of unitization – Palletization – Containerization – Costs of packaging – designing a package – packaging materials – choosing right materials	
Unit V	Collaboration and Recent Trends	07
	Collaboration of material flows – collaboration of information flows – collaboration of financial flows – collaboration of workforce flows Recent trends : Integration: Push system, Pull system, Demand driven strategies - SC Restructuring - SC Mapping - Role of Information Technology - Agile and Reverse supply chains

MB4417	Title: Infrastructure Project Management	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4207 MB4208	
Objectives	To learn the concepts of managing infrastructure projects.	
Expected Outcome	To apply project management principles in infrastructure business to optimize resource utilization and time optimization.	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction	07
Introduction to infrastructure- infrastructure scenario in India - key issues sectorwise - infrastructure players - phases of infrastructure projects		
Unit II	Construction, Maintenance and Risk Management	07
- construction and maintenance of infrastructure - PPP - risk management in infrastructure projects		
Unit III	Project financing	07
- infrastructure economics and finance - urban infrastructure needs and funding options - project structuring and risk allocation in project finance		
Unit IV	Governance and design	07
- project governance - data base management - design for infrastructure service life		
Unit V	Developer selection, cost-benefit analysis	07
- developer selection methodology - life cycle cost and benefit analysis - privatization in infrastructure projects		
Text Books	1. R.G. Ghattas, S.L. McKee, Practical Project Management, Pearson 2. John M. Nicholas, Project Management for Business and Technology, PHI

MB4418	Title: Supply Chain Performance Measurement	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4207 MB4208	
Objectives	To understand the importance and process of supply chain performance measurement	
Expected Outcome	To develop the analytical skill to measure performance of supply chain with an aim to enhance performance of supply chain	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Introduction	06
Characteristics of good measure - Importance of SCM performance measurement- SCM performance attributes - Obstacles hindering performance efforts - SC performance measurement criteria - Steps in developing SCM PM		
Unit II	Customer service vs cost	06
Business Strategy - Supply chain strategy – customer service level: order fill rate, stockout rate, backorder level, probability of on time delivery - cost of service vs service level curve- inefficient practices - impact of service level on revenue costs and profit		
Unit III	Supply chain performance measures	07
Order delivery lead time - supply chain typology (Order penetration point / Decoupling point - Make to stock, Make to order, Configure to order and Supply chain focus - Efficiency, Responsiveness) - Push-Pull boundary of supply chain - Supply chain responsiveness - Functional vs innovative products - Delivery reliability		
Unit IV	SCM Performance Measurement models	08
Cash Velocity - Balanced Scorecard - SCOR - The Logistics Scoreboard - ABC - EVA Benchmarking supply chain performance using financial data		
Unit V	Enhancing SC Performance	07
Strategic profit model - Impact of supply chain initiative on business performance - enhancing supply chain performance: supply chain integration, supply chain optimization, supply chain reconfiguration

MB4419	Title: Reverse logistics	L T P C 3 0 0 3
Version No.	1.0	
Course Prerequisites	MB4207 MB4208	
Objectives	To Understand the need and importance of reverse logistics in product flow.	
Expected Outcome	To enable an efficient method of moving products with optimization of time and cost	
Unit No.	Unit Title	No. of hours (per Unit)
Unit I	Size and Importance of Reverse logistics	07
Importance of reverse logistics – reverse logistics activities – strategic use of reverse logistics – reverse logistics challenges – barriers to good reverse logistics		
Unit II	Managing Returns	07
Improve return “gatekeeping” - compact disposition cycle time – reverse logistics information system – centralized return centers – zero returns – Re-manufacture and Refurbishment – Asset recovery -negotiation – financial management – outsourcing reverse logistics		
Unit III	Disposition and Secondary Market	07
Overview of reverse logistics flow – Returned product types – Product disposition – Material Flow – Secondary Markets – Secondary market firms – Strategic elements of secondary markets		
Unit IV	Reverse logistics and the Environment	06
Landfill costs and availability – Transport packaging – Returnable packaging consideration – Product Take-Back		
Unit V	Industry Snapshots and Future Trends	07
Publishing industry – electronic industry – automotive industry – retail industry Reducing reverse logistics flow – Managing reverse logistics flow		
Text Books	<ol style="list-style-type: none"> 1. Sunil Chopra, Peter Meindl, Supply Chain Management, Pearson 2. D.K. Agarwal. Logistics and Supply Chain Management, Macmillan
